Growth & development infancy to old age
 §105-109 - Selection of a prover, Concept of surrogates in drug proving
 §109-120 - Types of surrogates, type and limitation of surrogates
 Primary action
 Personality, various types
 Primary action and secondary reaction, Alternating states & their significance
 §121 - proving dose, concept & significance, Quality & purity of substance used proved (§122)
 Preparation of medicinal substance (§123), Diet & lifestyle of a prover (§124)
 Personality & Neurosmath
 Common & characteristic symptoms, Idiosyncrasies & individual susceptibilities
 Influence of ext. factors on provings (§125), Avoidance of medicinal & dietetic interference
 §127 - provings on both genders, §128 - crude drugs in provings
